PURSUIT DARK HORSE PREMIUM FEATURES

AMERICAN V-TWIN TOURING REIMAGINED

This chromed-out powerhouse redefines American touring performance. It's ready for any route you can dream up.

A BIG ENGINE WITH BIG TORQUE

You'll crush miles with unimaginable low-end torque right off the line and exhilarating top-end passing power from the liquid-cooled V-twin PowerPlus engine.

ROCK-SOLID STABILITY

With a chassis-mounted fairing, with optional electronically adjustable Fox® rear suspension, inverted front forks, and a cast-aluminum frame, you have the ultimate control.

CUTTING-EDGE TECHNOLOGY

Cruise control, built in audio, keyless ignition and even more ride enhancing tech are combined with a 7-inch touchscreen.

PREMIUM AUDIO

High-output speakers in the fairing and trunk deliver 200-watts of crystal-clear audio. It also sports a dynamic equaliser that automatically adjusts for road, wind and engine noise.

LONG-HAUL STORAGE

More than 133 Litres of weatherproof, remote-locking storage can handle all the gear you've got. Or take off the quick-release trunk to drop weight and give yourself a whole new profile.

THE ULTIMATE LUXURY

The frame-mounted fairing provides exceptional wind protection on its own. For even more, adjust the vents in the lowers or simply push a button to send up the windshield. Both Rider and passenger get a heated seat with premium style. Adjust to your preference with controls on the seat, or from your infotainment screen.

UNSURPASSED HANDLING

Electronically adjustable rear suspension preload lets you optimise suspension setting based on exactly who you're riding with and what you're hauling. Plus, Smart Lean technology uses a Bosch Inertial Measurement Unit to tune traction control, ABS, and torque for even more control.

BRIGHTER, BOLDER LIGHTING

BRIGHTER, BOLDER LIGHTING

Apple CarPlay®

iPhone® users can now easily access Apple Music, Maps, send messages with Siri and more through the Ride Command 7" screen and a supported Bluetooth headset (not included). All on a user-friendly interface that iPhone users will instantly recognise.
